OLD BUSINESS

Director Mancuso was looking for a little direction regarding the playground. In December, the bids were opened which came back considerably higher than anticipated. It would be helpful planning winter work if I knew how we were proceeding. We have a short window and questionable weather to work around and waiting for a decision at the end of the month would only shorten that time frame. Mancuso suggested modifying the plan and try to do some of the work now. He is suggesting removing the pea gravel surface and applying a playground mulch. He also suggested a cement walk or possibly a border to achieve the circular effect. He has researched cost, and anticipated a 10-20 thousand dollar cost. The Board could issue RFP from contractors which would speed up the process, for any work the maintenance crew could not perform. Commissioner Burton questioned if the Town and or Village would be able to help out and if they had the equipment. Mancuso commented that in the past the Town and Village have always helped when asked. Mancuso suggested not to grade and work with the existing contours; discussion followed.
